| <ul style="list-style-type: none">• Durable - Mounted on Linde Vehicle with smooth hydrostatic transmission.• Ergonomic - Joystick Control with armrest. High/low speed “break” buttons with automatic cycle.• Fast – Performs break while progressing continuously along the cell.• Versatile Breaks both cell sides and ends.• Safe – Eliminates strain, sprain and burns associated with manual crustbreaking. Operator protected from splashes by cab and right door. | <ul style="list-style-type: none">• Cost Effective• Smart – Hydraulic pressure filter is continuously monitored. System releases hydraulic pressure until engine startup is complete.• Modular – Electrical controls consist of just one enclosure and 3 connection cables. One Danfoss hydraulic function stack and one ductile iron cartridge block contain all hydraulic valves. |
